

BYOD – Connect to School Wifi

Instructions

If you have trouble with any of the steps below try following the Troubleshooting section in this document before contacting IT Services.

- Step 1** Turn on Wifi
- Step 2** Search for available networks
- Step 3** Select **MSC-Wireless**
- Step 4** Login with your **username** and **password** on the bottom of your timetable/login slip
If you don't have your default login details ask your teacher or see IT Services
- Step 5** If the Connect or Join button is greyed out you might have to select **Don't validate for CA certificate**
- Step 6** Open an Internet browser
- Step 7** Go msc.daymap.net and if you get a certificate error like the one below follow the [Install Security Certificate](#) steps in the Troubleshooting section below
- Step 8** If the school Daymap website loads without error you are finished and can access any websites required for your learning.

Remember to surf responsibly as the sites you access and your downloads will still be subject to College filtering and recorded against your login.

Troubleshooting

If you have trouble with any of the steps above, you can try the following suggestions before contacting IT Services

Install Security Certificate

- Open an Internet browser and go to certs.swift.sa.edu.au
- Follow the instructions to install the security certificate for your device type or Firefox browser
- Try Step 6 again

Restart Internet Browser

- Close any open tabs in your Internet browser then close the Internet browser and reopen it
- Try Step 6 again

Restart Device

- Restart your device
- Try Step 6 again

Forget Wireless Connection

- Open your WiFi connections and delete MSC-Wireless and any other connections that you no longer need
- Try Step 1 to 6 again

Clear Cache

- Go to your Internet browser settings and clear the cache then try Step 6 again

Please come to the IT Services window if you have any trouble or need help with the steps above.
